DETAILED ACTION

Allowable Subject Matter

Claims 1-29 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims is a use of streamers in 3D marine seismic survey and reducing effects of sea surface ghost wave field while the U.S. Patent No. 6,101,448 to Ikelle et al. uses ocean bottom cable (OBC) technique. Furthermore, the instant application is distinct from the U.S. Patent No. 5,051,961 to Corrigan et al., wherein the method of de-ghosting reflected seismic wave field uses Green's Function along with pressure and pressure gradient data in a single streamer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
